How to use this index

This Topical index is designed as a research aid
to the surname periodical *The Upshaw Family Journal*
which was published quarterly
from 1974 through 1981 and resumed from 2000 to 2002.

It provides a quick reference in a logical order
to the source records that have been published.

This index is sorted by major categories,
such as “Allied Families”, “Bible Records”, etc.
Specific items are in alphabetical order within the major categories and
each is followed by two numerals separated by a hyphen,
such as “3-107”, which references to UFJ vol. 3, page 107.
Some items will be found under more than one category
to facilitate the usefulness of this index.
